The No War On Cuba Movement thanks WPFW-FM for their support of this program and all the other public service and alternative voices they provide the Washington, DC community.

* The No War on Cuba movement was established this year, by groups and individuals to support Cuba's sovereignty and reject the aggressive, interventionist policies of the US government against Cuba. Our main goal is to provide factual information about US-Cuba relations that is neglected and misrepresented by mainstream media and US government propaganda.

We support the Cuban people and demand that the current US administration:

- End the US Blockade of Cuba!
- Stop all forms of economic, military, and political intervention against Cuba!
- Repeal the Helms-Burton Act and normalize relations!
- Lift all travel restrictions to Cuba!
- Free the Five Cuban Anti-Terrorists in US Prisons!
- Take Cuba Off the Terrorist List!

We maintain a website at www.NoWarOnCuba.org.
